

**Minutes Of Meeting KeePassXCIPFS  
(20191025)**

In today's meeting I was there with cleared doubts from previous meeting. Dr. Mateti asked me to prepare a script for the demonstration next week. He also explained me for the same as what should the script contain. He also provided a brief on how the presentation will be divided into 3 parts. The first 20 minutes will be a basic introduction, next 20 minutes what all work did I do and the last 20 minutes will consist of demo. He also suggested me certain things to demonstrate without fail which comprised of how things will interact and how long does it take. I was unclear about the script at last and he asked to explain it to me.
